RE: Coastal Windows & Exteriors partners with Greater Lowell Habitat for Humanity to build a new home in Concord, MA.

FOR IMMEDIATE RELEASE

**Coastal Windows & Exteriors Works With Habitat For Humanity
To Build A New Home in Concord, MA**

CONCORD, MA --- Coastal Windows & Exteriors joined forces with Habitat for Humanity of Greater Lowell to build a brand new home at 367 Commonwealth Ave. This is Habitat For Humanity's 52nd home-build and their first joint home building project with Coastal Windows & Exteriors.

"Coastal's commitment to the community is strong and as a new and committed member of the Concord Chamber of Commerce, we are proud to provide a free roofing system and siding to bring this project to completion." Notes Stephanie Vanderbilt, Owner of this woman-owned, family-run construction company.

The new home comes equipped with James Hardie® fiber cement siding. James Hardie® is specifically engineered for New England's climate. Homeowners can expect indoor comfort and protection with HardieWrap®, which helps insulate the home while wicking away moisture.

James Hardie®'s flagship product line includes HardiePlank® lap siding, the top-selling brand of siding in North America, revered for its strength, beauty, and durability. Also available is a variety of other high-quality fiber cement products, such as HardiePanel® vertical siding, HardieShingle® siding, and HardieTrim® boards. These products are known for their exceptional resistance to fire, moisture, rot, and pests, providing homeowners and builders with the peace of mind they seek in construction materials.

"It's very exciting for us to see members of the James Hardie® Contractor Alliance® Program building stronger communities and giving to those in need," said Jamie Schultz, Pro Channel Marketing Manager at James Hardie® Building Products. "We are proud of all the great work being done by Stephanie and the entire team at Coastal Windows & Exteriors!"

Coastal Windows & Exteriors is a James Hardie® preferred contractor, giving homeowners preferred pricing and a variety of stock colors to choose from.

Coastal Windows & Exteriors installed a free GAF Timberline UHDZ asphalt roof on the home. GAF roofs are made with top-quality award winning materials, engineered to protect the home from ice dams and leaks all year and especially during the winter months. GAF roofs come with an unlimited wind speed warranty, guaranteeing the shingles won't blow off the roof no matter how severe the storm. There is also a lifetime shingle defect warranty with 100% coverage and a 25-year workmanship coverage for shingles.

"We are thrilled to have Coastal Windows partnering with us on this project. When you are building affordable homes, it is critical to keep costs down and have such respectable and dedicated partners. We are so thrilled to work with Coastal." Suzanne Frechette, Habitat for Humanity of Greater Lowell.

"At Lansing Building Products our purpose is to make a positive impact in people's lives," said Tarcisio Ferreira, Branch Manager of Lansing Building Products. This opportunity to work with Coastal windows and exteriors and James Hardie to help Habitat for Humanity build this home for this family in Concord is very rewarding. Stephanie and the Coastal team do exceptional work, but this Habitat for Humanity home is very special and we are honor be a part in helping in the communities that we serve."

Coastal Windows & Exteriors was founded with the goal of creating a home improvement company with an empathetic, customer-first attitude based on educating customers. So far, they have donated over \$300,000 in labor and materials to Habitat for Humanity.

"Our mission at Coastal Windows & Exteriors aligns with Habitat's global construction programs, helping families in need by providing decent and affordable homes. Providing shelter means making a promise; a promise of protection and security. Donating a free GAF roofing system and James Hardie® siding is a great way to keep that promise as its layers of high quality protection work together to keep the home and the people inside safe from the elements." said Vanderbilt.
