

## June Bug

June Bug is a 4-year-old Shepherd mix looking for a fresh start in life. This amazingly sweet girl was abandoned with her siblings in a rural area in Arkansas, to make matters worse these pups were shot at. June Bug is shy and her foster family is working very hard showing her that she can trust again. She will need a family that is understanding of her needs and can help her build her confidence, she is definitely worth it!

## Michael

Michael is an adorable 1-year old Labrador mix who is looking for a family of his own. Michael and his brother were chained outside all their life and then eventually abandoned, but he holds no grudges and loves everyone. Michael loves people of all ages and does well with other dogs. He does play a little rough but is learning very quickly how to play nicely and take cues from other dogs. He also loves to play with his toys and snuggle with his foster family, this boy won't be on the market long so get those applications in!

# Ruby

Ruby is a beautiful 6-year-old Shepherd Labrador mix who is patiently waiting for her forever home. Ruby is a very shy girl who will need time to get to know you, but she is trying very hard. She has the sweetest personality, she is very calm, quiet and loving but she also can be playful once outside. Ruby does very well with other dogs but likes slow introductions and then she is ready to play. We would like to see Ruby in a quiet home where her owner is home more than not and also we recommend a fenced in yard.
