

Wylie

is an adorable 6-year-old Poodle Maltese mix who is looking for his forever

home. He found himself in a high kill shelter, very scared and so very thin, thankfully those days are behind him! Wylie has the sweetest disposition and just wants to snuggle and be loved. He does great with other dogs but sometimes thinks he is the alpha so he is learning how to be a member of the pack and would do great in a home with a non-dominant canine companion. Wylie does well with cats but he is not use to children and we recommend that his forever home does not have any. This pint size pooch is the perfect companion, don't wait fill out an application for him today!

Zane loves to go for walks, play with her canine and human siblings and even likes cats. She does have a little bit of arthritis and is currently being treated for glaucoma, but that doesn't stop her in the least. Zane would love a home with someone that can love and spoil her as she so much deserves!

Kibbee

Kibbee is 6-year-old Coonhound mix and is just as sweet as can be! She was abandoned but holds no grudges towards people, she loves everyone. Kibbee can be found hanging out with her foster family giving them tons of love and affection. She also is great with other dogs and based on her personality she would do well in a home with children. We are not sure how long Kibbee was on her own so her leash manners and house training need some brushing up but her foster family is working on this and this will need to be continued in her new forever home. Kibbee is an amazing dog who will love her new people unconditionally. Do not wait! This girl will not be on the market long.

Jessie is in a loving foster home and they are showing her how wonderful life can be. She does not hold any grudges and adores people of all ages. Jessie loves her canine friends and will even share her toys with them. Based on her personality we feel that she would do well with children. Jessie is going to need basic obedience even though she has made great strides with her foster family. Jessie would love an active home where she can go for daily walks, play with her people and would love a canine sibling.
