

# Olaf and Frannie Fluff

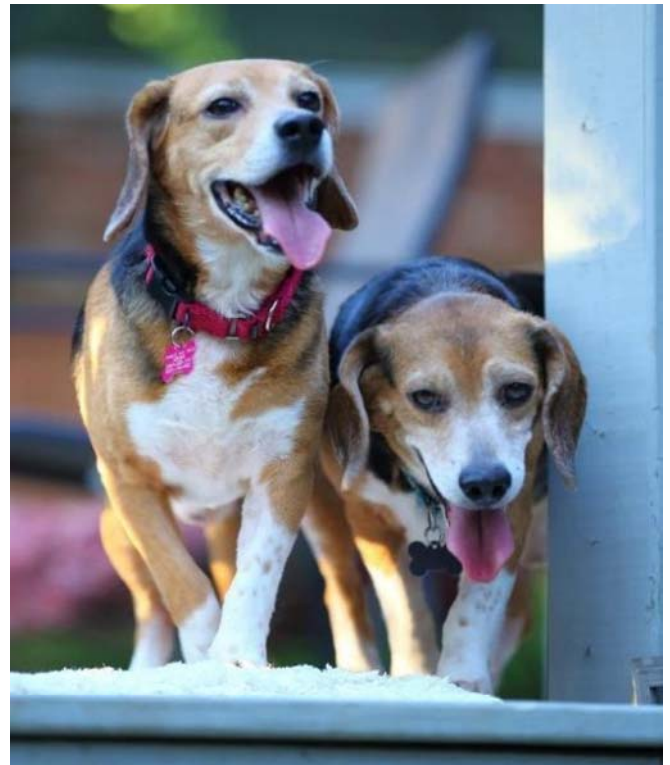

What's better than a perfect pup? Two perfect pups! Olaf is a Shih Tzu mix who is a bundle of love. He loves to snuggle and romp around with his best buddy Frannie Fluff. Frannie Fluff is a Pomeranian mix and is also a giant snuggle bug and loves everyone she meets. These adorable seniors did not have the best start in life, but that has not stopped them from enjoying life to the fullest and greeting everyone they meet with a smile and a tail wag. Olaf and Frannie Fluff absolutely adore each other and can conquer the world as long as they have each other. They would fit into most any family, they do well with dogs, cats and children!

# Reno Always True and Levi Love Me Do

These adorable brothers are 7 years old and are on the hunt for their forever home! Reno and Levi are extremely sweet and affectionate to everyone they meet. They once belonged to a hunter and when he retired from hunting so did the boys and they are now in foster care. The boys love to run and play with each other and their 6 canine foster siblings. Reno and Levi are as thick as thieves and would love to find their forever home together and if it's not too much to ask, Reno would like to have couch privileges (they love snuggling on the couch).

# Gracie Sunshine

This pint size cutie is a 7-8 year old beagle mix who is looking for her forever home. Gracie Sunshine lived her life in a chicken coupe till she escaped one day and fortunately someone found her and brought her into rescue. As one can image her world has opened up so much, which makes her a little cautious, but she is determined to overcome her fears and is doing amazing.

Gracie Sunshine is learning so much, the feeling of

a warm soft bed, being in a loving foster home and just having people around her who love her. She does well with other dogs, but needs a slow, short and proper introduction are needed. She is currently being fostered with Levi and Reno (who are also featured this month) so if you're in the market for three absolutely amazing and adorable beagles, why not apply for all three!

# Trixie Pix

Trixie Pix is a 6-year-old Chihuahua who finds herself looking for a new forever home. This tiny pup, weighing in at only 5 pounds will need a home that understands how tiny and delicate she is. Trixie pix would do best in a female household and does well with dogs, cats and children, we do recommend older children since Trixie Pix can be a little possessive of her toys and her people. She is a very sweet and feisty girl who cannot wait to meet her forever family.

# Olive and Zeus

Check out this adorable bonded pair! Olive and Zeus are 3-year-old Terrier Chihuahua mixes who are looking to start their new chapter in life. They are new to our rescue and we are learning about them as we go but one thing is definite, they are the sweetest most loving dogs and are going to make some lucky family very happy! Their devotion and love for each other is very obvious and therefore they need to stay together.
