

Infection Prevention Medical Director

- Fun fact of the day: Peonies take about 3 years to grow before they actually bloom.
- The number of new cases and COVID-19 cases in California is decreasing. It however, is possible that the interest in testing may be waning. We will know in the next 2-3 weeks if there is an uptake in cases.
- Please continue to practice social distancing when in public.

Human Resources

- Last Friday afternoon, an email was sent to all employees from Louis Gutierrez, VP of HR, providing the employee FAQs in relation to the CEO's memorandum and speech. We continue to recognize that this may be a difficult time for many, and we are committed to supporting both departing and remaining employees through this transitional period. The FAQs were linked to the memo, and are also housed on Town Square, under the Coronavirus, Employee Resources folder. If you or your team members should have any questions, please reach out to your respective manager, your HR business partner, the Benefits team, or the Life Assistance Program (LAP). We expect to provide additional information as new questions arise, and will keep you informed as quickly and thoroughly as possible.
