

### Government Relations

- AltaMed currently has capacity to see 1,500 patients per day at the outdoor evaluation centers. The City of Commerce has agreed to donate \$250,000 but there are some City Council members who disagree with the decision. **An action alert will go out this morning and will contain a template email to send to the City clerk in support of this effort. Please support AltaMed in this effort.**
- Deborah Birx called the disregard of social distancing devastatingly worrisome.
- Unemployment in the United States is the worst it has been since the 1930s.
- The Governor of California is working on the reopening plan for our State.

### Infection Prevention Medical Director

- Throughout the weekend leaders rounded throughout the evaluation systems. Thank you to everyone who did the rounding.
- Thank you to Dr. Michael Angulo who created a parade for those working at the evaluation centers.
- There are currently 9 evaluation centers and there is a high percentage of patients who are returning a positive test result. Currently positive patients are receiving a phone call from the registry team. The registry team will attempt 3 phone calls and send a letter and will contact the department of public health. A tip sheet will be sent out, so that everyone follows the same process. Currently patients with a negative test result are receiving a phone call only.

### Human Resources

- The BLS (or Basic Life Support) and CPR classes for the month of May have been cancelled and we will continue to monitor as the COVID-19 situation evolves. As a reminder, the American Heart Association has extended expiration dates on BLS/CPR cards from the previously announced 60 days to now 120 days. For example, a card that will expire on May 31st is now good until September 30th.
