

Dear Central UMC Family,

You are warmly invited to a Green Team gathering open to the entire Central United Methodist Church congregation.

On Saturday, January 24, 2026, at 10:00 AM, we will gather at Central UMC to learn, listen, and reflect together on environmental justice efforts affecting our wider Atlanta community.

We are honored to welcome leaders from Stop Flooding Us and the Westside Water Alliance, who will share insight into their ongoing work to protect the Vine City community, an area that has experienced repeated and devastating flooding. Their advocacy highlights the importance of being proactive in addressing environmental challenges and confronting the systems that allow environmental injustices to persist.

This conversation aligns with our call to care for creation, love our neighbors, and work toward justice and sustainability for all communities, especially those most impacted by inequitable infrastructure and environmental harm.

Whether you are already involved in environmental work or simply curious and concerned, your presence and voice matter.

### **Event Details**

- **Date:** Saturday, January 24, 2026
- **Time:** 10:00 AM
- **Location:** Central United Methodist Church

We look forward to gathering in community, learning together, and discerning how Central UMC can continue to be a faithful and engaged presence in the work of environmental justice.

In hope and solidarity,

Carol Tucker-Burden

Central UMC Green Team Facilitator
