Medical Aid in Dying in New York

IMPLEMENTATION

**Expert Training and
Resources for
Aid-in-Dying
Implementation**

**We train healthcare professionals on
medical aid in dying and connect
patients with experienced clinicians**

HOW WE CAN ASSIST

For Clinicians & Healthcare Organizations:

- Comprehensive clinical training on aid-in-dying patient care, led by experienced aid-in-dying clinicians (online and in-person)
- Expert guidance on institutional policy development and compliance
- Consultations for palliative care and hospice teams who will see patients considering aid in dying

For Patients & Families:

- Patient education and support to navigate all end-of-life options, which may include medical aid-in-dying
- Referral network connecting patients with experienced aid-in-dying clinicians
- Resources and guidance throughout the end-of-life decision-making process
