

GENERAL INFORMATION

Faces & Our Cultures is an 7.5 week Cultural Exchange Program from Guatemala. Our program offers an enriching cultural experience through the exchange of cultures within an educational environment.

Faces & Our Cultures is an experience in which a group of young Guatemalan cultural ambassadors visit the US, attend school, live with a host family and share about their culture with the community.

More than 80 private schools in the US participate in this cultural experience, having hosted 1,375 ambassadors since 2006. During this period of time, amazing friendships have been built and hundreds of lives have been touched by this memorable experience.
