Webinar:

Addressing Substance Use Risk in Extreme Heat

10:00am – 11:00am

Thursday, July 10th

Extreme heat is a deadly public health concern in Maricopa County. In 2024, nearly 60% of heat-related deaths involved substance use—most involving stimulants.

Join us for this free 1-hour webinar which will cover:

- The combined risks of extreme heat and substance use
- Harm reduction and intervention strategies
- Local efforts to reduce risk and save lives

Presented by:
Maricopa County Department of Public Health in collaboration with Banner Health, City of Phoenix, and Sonoran Prevention Works
