

Centering Community Voices through the Community Health Needs Assessment (CHNA)

What is a CHNA?

- A comprehensive data collection effort conducted every 3 years to identify strengths, challenges, health priorities, and opportunities to improve health

Actions from past CHNAs.

- Developed interactive data reports, city profiles & Voices of Maricopa County data dashboard
- Shared data to major hospitals/healthcare providers to inform healthcare delivery
- Informed the community health improvement plan developed by over 100 community partners
- Supported vaccine uptake strategy in Maricopa County
- Directed funding to local organizations to address top health needs in the community

Why your voice matters.

- YOU inform our understanding of the health and well-being of Maricopa County residents. Share what matters to you and other members of your community when it comes to health.

Next CHNA in March 2023.

- Stay informed about the CHNA & sign up for updates on Maricopahealthmatters.org

Here's what the community identified as top health & social needs in the 2019 & 2021 CHNAs
