## Employee health is good business!

The Healthy Arizona Worksites Program (HAWP) is a statewide public health initiative developed to help employers implement evidence-based worksite wellness programs and strategies.

Join us to learn about:

- How to design a comprehensive worksite wellness program that can improve the health of your business and employees
- Successful national and local employer efforts to improve employee and organizational health
- How to apply for the Healthy Arizona Worksite Award

Attending this seminar is also the first step in applying for the Healthy Arizona Worksite Award and being recognized by the Arizona Department of Health Services for your organization's worksite wellness efforts.
