

# Infrastructure Projects in Latin America Webinar Series

*Business opportunities in Latin America*

April-July, 2020 - 1:00 p.m. EST

The U.S. Commercial Service has organized an Infrastructure Webinar Series focused on upcoming infrastructure projects in Latin America announced by different governments in the region to stimulate their economies. These projects represent a fantastic opportunity for U.S. Companies in different sectors from architectures services, engineering services, construction equipment, building products, airports, ports, transportation, housing, environmental technologies, among others.

You will hear from U.S. Commercial Diplomats, local Government Officials and private sector experts to help you identify upcoming market opportunities and craft a market entry strategy.

Markets to include: Panama, Mexico, Argentina, Paraguay, Uruguay, Peru, Chile, Ecuador, the Caribbean Region, and the Central America Region.

Take advantage of this great opportunity and learn about:

- Upcoming projects in the region
- Procurement needs, licenses and registration requirements in different countries
- Trade barriers and market access issues
- U.S. Government international trade contacts to support your international sales growth

Your Organization can participate in one, two or all eight Webinars. The cost for each webinar is just \$25 and only \$120 for the entire series.

Webinar Series Schedule (all at 1:00 p.m. EST):

1. Panama – April 14, 2020 [Register Here](#)
2. Mexico – April 28, 2020
3. Argentina/Uruguay/Paraguay – May 20, 2020
4. Peru – May 26, 2020
5. Caribbean Region – June 3, 2020
6. Chile – June 9, 2020
7. Ecuador – June 19, 2020
8. Central America – July 7, 2020

**Join to learn about upcoming and ready-to-bid federal and state infrastructure projects in Latin America, understand the latest developments in the regulatory environment, and hear how to apply for financial resources from USG agencies!**
