Things to Consider for Scene Work

This is a two-night event and to have a scene you must commit to both nights- you can have different performers form your group each night but we can't have a scene one night and not the next

This is rain or shine- obviously if it's downpouring we will delay or have a hold- but if it's cold, misting or sprinkling we are still a go (and it's even spookier) so plan accordingly

If you can't perform both nights, you can still perform one night and be a "roaming scarer" between scenes, you just won't have a permanent scene location

Scene Requirements

- THEATRICAL** Your scene should have a bit of a storyline. Scenes must be done in good taste meaning not overtly political, religious or depict real-life trauma; scenes should be Halloween-based
- LIGHTS**- Scenes must be well lit (scenes are less scary if your creepiness can't be seen. Please bring your own extension cords. If you have lights great; we will try and provide some lighting too)
- PROPS**- You must supply your own props. Please no REAL props like guns, knives, blood...you get the idea. Chainless saw operation for 21+ only. We will have a limit on chainsaw scenes.
- COSTUMES**- All haunters must be dressed in full costume. A mask and sweatshirt DO NOT qualify as a full costume. Tighten it up, people.
- SCENE SUPERVISION**- Minimum of a 1:5 ratio of adults to children (anyone under 18). Scene Representatives are responsible for all volunteers on your scene.
- VOLUNTEERS**- All volunteers on your scene must check in at Volunteer Registration when entering the venue.
