

## Hawks Eye View

West Middle Community School Boys & Girls Club summer fun club 2018 was jammed packed with activities, field trips, and educational thematic programming. Our summer theme this year is “Summer at the Museum” where we offered our members the opportunity to explore and create a museum just for summer fun in an array of challenging activities while incorporating dynamic themes. We kicked off summer with our Grand Opening event where we did our BIG museum name reveal. The name, “Explorers of the West” was chosen by our members to signify West Middle’s Boys & Girls Club members urge to explore around their community. Throughout

the next few weeks community partners were brought in to allow our members the opportunity to experience new things such as; the Banfield Pet Academy bringing in one of their animals to perform a veterinarian check up on him and Dream Chasers Academy coming in

to mentor and assist our older members in putting together three inspiring plays, one of which they will be performing at our end of summer celebration. Of course, summer camp wouldn’t be complete without all of our field trips! Our members had the times of their lives at Silver Lanes Bowling Alley, Connecticut Science Center, Mystic Aquarium, and Six Flags New England along with other small local field trips. Overall our campers and staff all agree that this was the BEST. SUMMER. EVER.
