The Mark Twain Branch Library had it's home on the first floor of the Mark Twain House beginning in 1930. Later it was moved to the Farmington Ave storefront where it remained until 2011, when it was moved to Hartford Public High School. As planning began for the West Middle School renovations, it was agreed that space would be included for the Library to be located there. That plan becomes a reality on March 1, 2017.
