

Executive Director Joins the AHNA Team

I'm very honored to be named as the Asylum Hill Neighborhood Association's (AHNA) first executive director. The Board and I have formed a strong team that will continue to grow and sustain AHNA's work to revitalize the Asylum Hill neighborhood.

We plan to significantly increase outreach to community residents, merchants, non-profits and corporations in Asylum Hill. The more involved our stakeholders become in AHNA the more effective we will be in improving the quality of life in Asylum Hill. Residents, merchants our major corporate employers, non-profits, and City Hall all will need to work together to be successful. AHNA's role is to make this happen. We will need more volunteers and more participation in AHNA activities to continue the success realized to date and to grow AHNA to be able to take on the many challenges

confronting our beautiful neighborhood.

Moreover, I want to hear from the residents and merchants. It is vital that our work is guided by the needs of those living and working in our neighborhood. Please attend one of our General Meetings held on the first Monday of each month starting at 6:15pm at 224 Farmington Avenue. If you can't make the monthly meeting and still want to raise a concern, please email me at exdir@Asylumhill.org. We would love to hear from you.

Our priorities for the coming year include strengthening the organization by building stronger relationships with all our stakeholders, increasing the number of volunteers, increase funding for AHNA, and recruiting new Board members and volunteers to work on improving the quality of life in Asylum Hill. When we work together we can accomplish anything we want for Asylum Hill. Please join us!
