Creating a Strong Estate Plan: An Instruction Manual for Your Personal Care*

Everyone, both young and old, needs an estate plan. Your life circumstances can change in an instant! If you don't have a plan in place, the State of Connecticut will make some of these decisions for you.

At this event, Czepiga, Daly & Pope will present information about important estate planning documents like Powers of Attorney and Healthcare Directives that can be created to make sure your wishes are met. This is also important, so your family knows how to care for you when you can't care for yourself.
