

THE RIGHT VIEW- PART 2

THE RIGHT VIEW OF YOU

Preface: As we continue with our study in perspectives, we now come to the view of ourselves, and its importance. It must be stated that a correct view of God leads to a correct view of self. According to the Scriptures we have been created in the image of God, therefore the knowledge of the substance from which the image is derived is paramount for a proper image. In Part 2 of this series, **The Right View Of You** explores the truths that we are in fact embodied spirits, eternal in nature as we march through time, while being transformed daily from being sinners to becoming saints by the grace of God. It is the journey of the redeemed, those who an omnipotent God has redeemed from the hand of the enemy. I want to invite us to take another look at ourselves, to see ourselves the way God sees us.
