NSC has made additional suggestion for options for sites. Please answer all. FIRST option is to go to two sites and adopting a regional. Other clubs such as Poodles and Golden have used this. They are identical with the exception that major points for Reserve Winners are not awarded at the Regional. (AKC rules) Biggest downside is we would be running two shows in a year which is labor and resource intensive

ANSWER CHOICES	RESPONSES
Yes	9.59% 51
No	90.41% 481
TOTAL	532

SECOND option is to only use one site. This also has been used by other clubs. The benefit is that the show committee is not constantly reinventing the wheel but tweaking each year to reflect changes in exhibitor and visitor habits. Downside is it may decrease the number of exhibitors due to travel distances however, using a middle of the country show site would help with that issue.

THIRD option is to hold a separate Breed and Performance National . One of the most difficult parts of choosing any site, regardless of National format, is Herding and Agility as they have traditionally been off site events. Breed would continue to be held in the time frame allowed by Show Rules. The MVC would continue to be awarded at the conformation site. Performance would be held, preferably at an all-inclusive show site where all equipment and livestock are on site in possibly June or early Fall. Upside would offer an opportunity for the Performance exhibitors to expand these events. Tracking, Dock Diving, Scent Work, Fast Cat etc. as well as seminars, a performance invitational and dinners that aren't currently offered
