

APAC Spotlight

Hello Clients and Fellow Employees,

My name is Stephanie Prince. I am the new Program Technician for the APAC team. Although I am new to this position, I am not new to the APAC program. I have worked with the APAC program since 2015. I am a University of Central Arkansas graduate, earning my Bachelors of Science in December 2014. I am a resident of Carlisle, AR and have lived in the Delta region of Arkansas for most of my life. My husband is a teacher and coach and we recently welcomed our first baby (a boy) in February! I am very familiar with most government programs and love to help our clients through these program processes. I look forward to assisting our clients and small business in Arkansas.
