Training Facilitators to Support Youth Provider Network

About the Philadelphia Youth Network:

The Philadelphia Youth Network (PYN) is a solutions-builder forging together significant players to alleviate a root cause of poverty by preparing 12-24-year-olds to become productive working adults. Our work is grounded in the understanding that young people need access to both education and employment, proven factors in being prepared for a career. With a track record of increasing impact, PYN funds and brokers action with the right partners to collectively address barriers. PYN constructs systems to create change, while innovating to meet evolving needs. Together with our partners, PYN dramatically changes the trajectory of individuals' lives by giving voice to underserved youth, and ultimately creating a pipeline for an educated, engaged workforce. About PYN's Programmatic Supports

PYN staff support youth programs (including E3, WIOA, TANF, OST and WorkReady providers) with goal setting, continuous improvement, program quality assessments and professional development to help further develop staff capacity. Our work is grounded in PYN's Career Development Framework ([CDF](#)). PYN's Career Development Framework provides a unified approach to skill development, career readiness, career retention and advancement, bridging the career pathway needs of the emerging workforce with the expectations of employers. The Framework depicts a flexible pathway that varies based on the developmental needs of each young person, beginning with awareness, proceeding through exploration and preparation and training and immersion, and culminating with employment and advancement. To support this approach we use materials from the [Weikart Center](#), who has determined best practices for youth programs based on national data. We evaluate programs using the Youth Program Quality Assessment from Weikart and teach best practices to provider staff during monthly Weikart Methods trainings. We also engage our providers in Professional Learning Communities and offer trainings related to Trauma Informed Practices, self-care, disability inclusion, financial literacy and digital literacy. Our team provides data and outcome reports for certain programs within our portfolio and coaching to all providers in our network.

About The Weikart Center for Youth Program Quality

The [David P. Weikart Center for Youth Program Quality](#) empowers education and human service leaders to adapt, implement, and scale best-in-class, research validated quality improvement systems to advance child and youth development.

Their approach is based in positive youth development research, and the desire to create a safe, supportive, and productive environment for youth. The approach is premised on the belief that it is a youth worker's job to set up an environment for youth in which needs are met and learning is encouraged—to create a space in which young people can thrive. Their approach provides a way to organize the many, many things a youth worker does to build a great experience for young people.
