

Lunch and Learn: *13 Driver's Licenses*

Friday, January 16, 2026, 11:00 AM–1:00 PM

Cost: \$25

13 Driver's Licenses is a powerful exhibit that brings to light the individual stories of thirteen Jewish residents of Lichtenfels, Germany, who were persecuted during the Nazi regime. The exhibit began with an extraordinary discovery: thirteen original driver's licenses found in an old building in the small Bavarian town of Lichtenfels. Once uncovered, the licenses were entrusted to a local high school teacher, who recognized their historical significance and transformed the find into a meaningful research project for his students.

The program will feature **Lisa Salko**, a descendant of three of the recovered licenses, who will share this remarkable story and reflect on its personal and historical impact. Following the presentation, participants will enjoy a falafel lunch in honor of David (Dugo) Leitner, a Holocaust survivor. Each year at this time, through the global event of **Operation Dugo**, we pay tribute to Dugo's life and resilience by sharing falafel as a tribute to survival, remembrance, and hope.
