

Film Screening & Talkback:

Fiddler on the Moon: Judaism in Space

Thursday, April 30, 11:00 AM–1:00 PM

Admission: \$34

Members: \$30

Finally. An answer to the question that has plagued scientists, theologians, and comedians for millennia: **Will Judaism survive in space?**

Join us for a special screening of the short film ***Fiddler on the Moon: Judaism in Space***. In this documentary, astrophysicist Neil deGrasse Tyson, astronauts Jeffrey Hoffman and Jessica Meir, and a quorum of rabbis and researchers will explore how Jewish traditions could be practiced in space.

Speakers from **Westchester Amateur Astronomers** will hold a discussion after the screening. A light lunch will be served.
