n=2,527

### Our Reach Across Georgia

*Hope Givers Live!* has been to 16 counties across Georgia and has reached over 15,000 students!

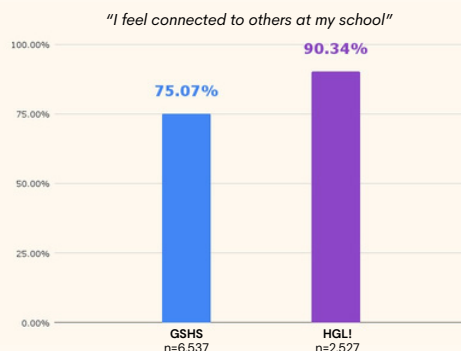

### What Grade Are You In?

### Connectedness in Schools

#### Comparison to GADoE Data

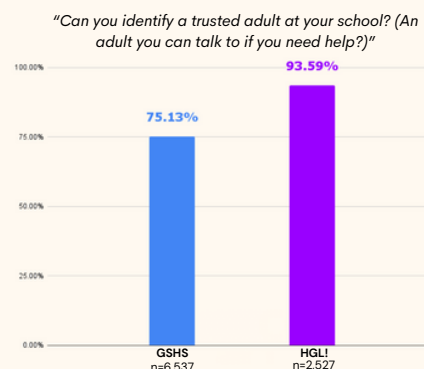

When asked about their connection to others at their school, there is a **fifteen percentage point increase in connection between students** post-event compared to GSHS data from the previous year.\*

### Trusted Adults

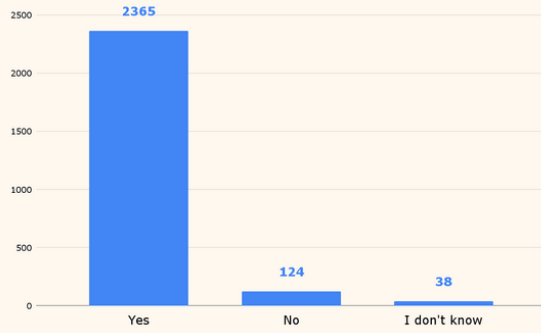

#### Comparison to GADoE Data

Following a *Hope Givers Live!* event, 93.59% of students can identify a trusted adult at their school. The school average is 75.13% the year before the event.

## Who Here Has A Trusted Adult?

Number of students who can identify a trusted adult at their school following the event.

## Quick Statistics

- After the event, 90.3% of students felt connected to others at their school.
- 95.3% of students learned a healthy coping strategy to build resilience.
- 94.6% of students learned about positive goal-setting.
- **Statewide, 1 in 4 students lack a trusted adult at school. Following a HGL event, that number drops to less than 1 in 15.**

## Sources

**\*Baseline data taken from the Georgia Student Health Survey (GSHS) from the Georgia Department of Education at the school level from the previous year.**

*Hope Givers Live!* surveys are administered following the event. The surveys are anonymous and completed individually by the students. Data collected from 2,527 students across eight counties in Georgia.
