Georgia Kids Ready to Flourish Study

Building School Readiness in Young Children with SEE Learning® Play

Calling All Early Childcare, Pre-K and Kindergarten Networks in Atlanta
WE NEED YOU

We are in a strong position to bring SEE Learning® Play for Free to Kindergartens and Early Childcare settings in Georgia

Why SEE Learning® Play?

Preliminary research found promising signs that SEE Learning Play supports children's social, emotional, and academic development, fits into pre-existing programs well, and may enhance what is already happening in the classroom. Children showed positive growth in prosocial behavior, teacher-child relationships, classroom engagement, and early learning skills, with especially encouraging outcomes for children facing greater challenges at the start of the year.

Why Now?

Your partnership can help unlock $1M+ in funding to expand SEE Learning Play. Join one of 100 childcare, Pre-K, and Kindergarten classrooms needed by November 1 to help make this opportunity possible.

What We Need by November 1st?

- A letter of support (template provided)
- A brief conversation to share feedback and explore partnership opportunities
- Champions who believe this work could benefit Atlanta children and families

What Schools & School Networks Receive

✓ Free educator training and supports that fit well with what is already happening in the classroom
✓ Ongoing coaching throughout the school year for teachers and administrators
✓ Substitute coverage support
✓ Teacher honoraria
✓ Opportunity to help shape the future of compassion-based social-emotional learning
✓ All participating classrooms receive SEE Learning Play during the study

Our goal is to make participation as easy as possible by providing training, implementation support, substitute reimbursement, and teacher compensation throughout the study.

Please Join Our Team!

Please contact the principal investigator, Dr. Tyralynn Frazier (tfrazi2@emory.edu) as soon as possible to find out more about the research study.
