## ABOUT THE TRAINING

This in-person training will provide participants with the knowledge, tools, and strategies needed to implement or strengthen Handle with Care (HWC) in their community. HWC is an evidence-informed strategy that connects first responders, schools, and community partners to support children exposed to trauma.

## WHO SHOULD ATTEND

First  
Responders

Law  
Enforcement

Educators &  
School Staff

Mental Health  
Providers

Community  
Partners

Leaders &  
Policymakers

First responders play a critical role in identifying and notifying schools when a child has been exposed to a potentially traumatic event. Your involvement makes the Handle with Care approach possible.

## TRAINING TOPICS

- ✓ The Impact of Trauma on Children
- ✓ Overview of the Handle with Care Model
- ✓ Roles & Responsibilities of Key Partners
- ✓ Building an Effective HWC System
