YOUTH WITH PROBLEMATIC SEXUAL BEHAVIOR (YPSB)

Building a Stronger Response Across Georgia

DID YOU KNOW?

Up to 70% of CSA cases involve youth-initiated offenses.

Person-first language matters: Youth labeled as "offenders" or "perpetrators" often receive harsher responses for the same behavior as youth described as person-first language, such as ***youth with problematic sexual behavior.***

No single state entity has jurisdiction over youth with problematic sexual behavior, often resulting in **uncoordinated, fragmented,** and **ineffective** responses for youth and families across Georgia.

In Georgia, the average cost of:

1 YEAR OF DETENTION	VS	1 YEAR OF OUTPATIENT TREATMENT
Over **$100,000**		Less than **$10,000**
