

Q1 GENERAL MEMBERSHIP MEETING

MARCH 11 | 11:30 AM - 1:15 PM

FEATURED KEYNOTE:
Leah Chan,
Georgia Budget
and Policy Institute

Join us as we hear from Leah Chan with the Georgia Budget and Policy Institute for an important conversation on the FY27 Georgia budget.

Leah Chan is the Director of Health Justice at Georgia Budget and Policy Institute. In her role, Leah focuses on research and advocacy that ensures all Georgians have a fair and just opportunity to be as healthy as possible.

Prior to joining GBPI in February 2022, Leah worked for over a decade at the Centers for Disease Control and Prevention in strategic partnership, policy, and communication roles and focused on a range of public health priorities from suicide to autism. Among her many duties while at CDC, Leah had the opportunity to co-lead human-centered design projects focused on better understanding the lived experiences of those most disproportionately impacted by today's urgent health crises and working alongside those communities to develop solutions.

As the local coalition for the **Georgia Family Connection Partnership**, the Cobb Collaborative invites our cross-sector network of members to join us for our Quarterly General Membership Meeting (GMM). These gatherings are the heartbeat of our coalition, designed to equip our members with the latest knowledge, data, and resources to support families across Cobb County.

Who is this event for?

This FREE event is for nonprofit, community and business leaders.
