

Sun God Medicinals

Herbal Infused Blunt Toolkit

The Artisan Comeback | Southern Oregon Bioregional Herbalism

The "Elevator Pitch" (How to Sell it in 15 Seconds)

Unlike standard infused blunts that are infused with THC distillate, Sun God Medicinals uses **Whole-Plant Herbalism**. We blend premium **flower, kief, and live rosin** with **real herbs** for a smoother, functional high that you can **see, smell, and feel**. It's a **craft smoking ritual**, not just a **potency play**.

Product Breakdown: Which One is for Them?

- Social Ease
- Mind Balance

3 Fast Facts for Budtenders

Southern Oregon All-Star

Regenerative, Organic Farms

No Synthetic Terpenes

Pure Plant Flavor & Aroma

Hand-Coated Herbal Exterior

Slow Burn, Hemp Wrap

Pro-Tip: Handling "Potency" Questions

Customer Asks: "What's the THC %?"

You Say:

These are designed for the **Entourage Effect**. The THC is high thanks to the live rosin & kief, but the **botanical blend helps guide the experience**.

Instead of THC alone like distillate, the combo of **whole-plant cannabis + herbs** creates a **more balanced, nuanced high** – often feels fuller than % alone.

If They Want a **Potency Comparison**:

"Think of it like tuning a sound system – the cannabinoids, terpenes & herbs shape how the **high feels**, not just how **loud it is.**"
