Responsibility to planet earth is important and at Sherman Lake YMCA we also believe that being responsible to our community is equally as important. Our Annual Campaign begins at this time every year, right about the same time that we receive an influx in scholarship requests. Scholarship requests come from families who, like many of you, value the impact and necessity of camp for their child, but face circumstances that make it a challenging financial commitment. At the Sherman Lake YMCA, we are committed to raising enough dollars through our Annual Campaign to ensure that no child is denied a camp experience due to their inability to pay and we are proud to share that in 2018 we provided $125,000 in scholarships for more than 250 campers. We believe that it is part of our responsibility and being a true example of HCRR. You may have already received a letter requesting your contribution to our Annual Campaign, but we feel that we would be missing an important opportunity if we didn’t mention it again – we invite you to contribute, too!

Click Here to make it easy to give at any dollar amount.

We will continue to strive to be responsible to our earth and our community - campers, families, staff and neighbors.

Karen Christopherson, Summer Camp Director

The 150kW solar array will produce 175,000kWh of power annually, covering 10% of our annual electricity use.

Projected Savings of the Solar Project (25 Year Total)
- CO2: 9,380,157 lbs
- NOx: 12,498 lbs
- SO2: 41,397 lbs
- Nuclear Waste: 30.26 lbs

Projected Savings of the Solar Project (Annually)
- CO2: 375,206 lbs
- NOx: 499.9 lbs
- SO2: 1,656 lbs
- Nuclear Waste: 1.21 lbs
