

Substance Use During Pregnancy Training Series

Perinatal Stimulant Use

With an increase in prescribed and illicit stimulant use across populations, use has also increased during pregnancy. We will spend time reviewing current research on the potential impact of stimulant exposure during pregnancy and how to communicate information to patients with available materials. Stimulant use disorder treatment and harm reduction strategies will also be discussed.

Speaker: Melissa L Godwin, MSW, LCSW

Audience: Physicians, PAs, NPs, nurses, social workers, and others interested in the topic.
