

# ELAC GE 385 Directed Study

## Fall 2020 — Intro to Engineering Technology

Interested in expanding your knowledge of engineering technology to get ahead in your industry?

Learn the latest software from Bentley Institute Qualified Trainers.

Join the **GE 385 class** this Fall at East Los Angeles College!

### Why should you sign up?

1. Learn a range of software used by 46 DOTs, Utilities, Government Agencies & AEC Companies—MicroStation, OpenRoads Designer, ContextCapture, OpenRoads ConceptStation & OpenSite Designer
2. Keep your competitive edge by learning alongside the up & coming in the industry.
3. Professional Level Training for Continuing Education—College Credit from ELAC & Certificates of Completion from Bentley Institute!
4. Low cost, full semester class—a chance to learn and ask as many questions as you need!

This class is taught by Bentley Institute Qualified Trainers and facilitated by ELAC and Cal Poly Pomona professors. It meets on Tuesday evenings from 3:30pm to 6:40pm from Sept. 1, 2020 to Dec. 15, 2020. For More Information, please visit: [LearnMicroStation.com](http://LearnMicroStation.com)
