Determine Ring Size

If you want to find your ring size, here are two easy options. Print this paper, and make sure your printer is set to 100 percent. If these diagrams are not printed in the actual size, your measurements will not be correct. To ensure the page is printed at the correct size, place a credit card on the line below.

Place credit card here

Option 1: Use a Paper Ring Sizer

An easy way to determine your ring size is to measure your finger with this paper ring sizer. Just cut out the sizer below as well as the slit where you read the size. Wrap the paper around your finger and insert the end with the ruler through the slit. Use the numbers on the paper to find your ring size.
