

Physician Practice Guidance for Patient Referral Suspected COVID-19

Patients and providers should be working together to evaluate all medical needs at this time to ensure social distancing is maximized and non-urgent activities are postponed. We recognize this is an unprecedented time in our communities and stress our appreciation for this partnership in keeping our patients, our caregivers and our community safe.

Is a patient symptomatic and appropriate for COVID-19 testing?

Trained healthcare professionals are standing by to answer questions about coronavirus. The call is free. NJ residents should call the 24-Hour Public Hotline, called "The NJ Poison Control and Coronavirus Hotline," at 1-800-962-1253.

The NJ Poison Control Center and 211 have partnered with the State to provide information to the public on COVID-19:

Call: 2-1-1 | Text: NJCOVID to 898-211

Important guidance and additional resources available at: www.msnj.org/PublicHealth

MSNJ can assist physicians through its Member Resource Center during business hours at 609-896-1766 or info@msnj.org.
