

Aowsmer Ordonas has approached the SC&O Committee with a request for help to realize a project that she is working on. The church that the Ordonas family attended in the Philippines (and where members of their extended family still worship) is in need of a computer to enable them to have a powerpoint display of words and images during their service, as we do in our sanctuary. SC&O would like to support Ozzie by helping her to raise money and we have decided to designate this as the "Outreach" portion of the Special Easter Offering. There will still be the option of a special offering that will be designated for the Life and Work of Trillium as well. Time is of the essence however, with this project, since they are hoping to have the new computer in time to use it at their Easter service. If you would like to support this project, please respond either with an e-transfer, or a cheque, made out to Trillium and designated for SC&O special Easter offering - Philippines. Aowsmer's goal is \$600. Any money in excess of this amount that we receive will be used for the "local" part of the Special Easter Offering, which will be for the furnace project at the church.

Any questions can be directed to Liz Reed or Susan Balfour.
