

Most Christians say they should read the Bible more than they do. It can be a tough practice to get going. One of the best ways to read the Bible is to join a reading group. For the months of February and March Pastor Mark is going to lead a reading group through the Letter to the Hebrews. This is one of the more important but more obscure writings in the New Testament. In this group you will join with others reading Hebrews, learn about its unique approach to Jesus Christ and have a chance to think about how it applies to your life.
