

MATT'S MESSAGE

March - 2019

...(and all sports for that matter) the returns diminish greatly. Football was never meant to be at the center of any kids' life. It's purpose is to help boys become men through living and learning the lessons of the game. When I say become a man, I'm talking about things like service, commitment, fortitude, and love.

Please remember this my football brethren. Tools only work when they are used for why they were created. A screwdriver is useless if you use it to hammer a nail. We always must continue to remind ourselves of the goal.
