

Stacey Park Premium Dye Inks

Jacquard is excited to announce the first release of Premium Dye Inks in collaboration with licensed designer Stacey Park!

These fast-drying water-reactive inks print with great coverage and sharp detail on coated and non-coated papers. With a high density raised felt pad, they release the perfect amount of ink every time, and will ink stamps of any size. The first release includes full size pads and re-inkers in 12 mouth-watering colors specially curated by Stacey's keen eye for color.

PREMIUM DYE INK PAD

These fast-drying water-reactive inks print with great coverage and sharp detail on coated and non-coated papers. With a high density raised felt pad, they release the perfect amount of ink every time, and will ink stamps of any size. Re-activate and move the ink with a wet paintbrush or spritzer for special effects and dynamic movement. Acid free and non-toxic.

PREMIUM DYE RE-INKERS

Keep your ink pads fresh and saturated and save them from the landfill by re-inking the pad material with Jacquard's Premium Dye Re-Inkers. Re-inking is easy: simply squeeze the ink onto the pad surface and rub in a circular motion until fully absorbed. Repeat as needed, as many times as you like. Premium Dye Re-Inkers may also be used straight from the bottle with a brush or blending tool for fine details, backgrounds and gradients. Blend the inks before applying to the pad to create your own custom stamp-able colors.

FEATURES

- Archival, Acid Free & Non-toxic.
- Fast-drying & Water-reactive
- Exceptional shelf life.
- Gives a sharp impression every time
- Brilliant colors

	301 Yellow Curry

Stacey Park

Jacquard Licensed Designer
Sizzix Licensed Designer

Stacey Park is the owner of an independent retail shop in California. With over 20 years in the creative industry, she has made it her mission to share the knowledge she gained through an extensive educational program.

Starting January 23rd, join Stacey every Tuesday for her new "Take 2 Tuesday's" classes. She will be featuring technique-based classes using her new line of Jacquard Inks paired with her collections from Sizzix. These videos can be found on her YouTube channel and shared with your customers as they will promote our new inks with continuous and fresh content. With over 650,000 followers on YouTube and in excess of 270,000 followers on Facebook, Stacey truly has a personal connection with the consumer.

With her global reach, Stacey is always looking for new and creative ways to use products. She challenges herself and her customers by looking at products from a different perspective. Taking the products she uses to the next level for her followers is a trademark for Stacey. This is a key factor in her success with Jacquard Products. For Stacey, it is all about showing and sharing ideas that instill confidence in makers, allowing them the opportunity to grow and explore while being creative.

In Stacey's words:

Why Jacquard: Magic happened when NAMTA and Creativation merged

"Knowing Jacquard products by reputation but never having the opportunity to learn about them, attending the NAMTA-Creativation show in 2022 was a game changer for me. It was there that I met Jacquard President Asher Katz, who showed me a world of products that sparked an immediate love for the brand. True to my 'outside of the box' thinking, I envisioned how makers could take more traditional Fine Art products and incorporate them into their makes. I have always tried to convey through my wide social media reach that when you start with the best products you end with the best results. And to me, Stacey, that meant Jacquard was THE manufacturer I wanted to partner with."

Why did I start with Inks?

"As an avid maker and a retail store owner, I get to see and hear firsthand what makers are looking for, and at the top of the list is quality. So, when I had the chance to collaborate with the chemists at Jacquard, I was excited to develop an ink that would perform exceptionally yet be accessible to anyone in the crafting community, at any level. After the first 12 dye-based colors launching in January, I will be building on this assortment to release in conjunction with my own collection of dies, stamps, stencils, and embossing folders by Sizzix."
