

Greetings from EAP

Thank you for working with the Energy Assistance Program (EAP) to help keep Minnesota households safe and warm.

We urge vendors to enter prior program year (10/1/21-9/30/22) refunds into eHEAT well before Dec 1.

This is essential to allow EAP Service Providers time to get the household's new energy vendor information and redirect the funds to the new account by the December 1 deadline.

- Energy vendors cannot enter refunds from FFY22 in eHEAT after Dec 1.
- Households lose access to those funds if their Service Provider is unable to redirect the refund to their new energy vendor account by Dec. 1.
- After Dec. 1, all prior year refunds need to be sent to Commerce by check and those funds are then returned to the federal government.
