MA Health Connector

When is open enrollment?

November 1, 2017 - January 23, 2018. The MA enrollment period is longer than the federal enrollment period. Federal enrollment ends December 15.

Would my client qualify for special enrollment should they miss the deadline?

They may, if they have a qualifying event, are applying for dental coverage, or have limited MassHealth products.

If my client applies in person, what documents do they need?

- Social Security number, if applicable
- Federal tax returns, if applicable
- Citizenship or national/immigration status documents
- Employer and income information (paystubs or wage statements)
- Information about any job-related or other health insurance they are currently enrolled in/has been made available to them

How can my client apply online?

Visit the MA Health Connector, our state's health insurance marketplace, at mahealthconnector.org to pick the plan that best fits with your client's budget and insurance coverage needs.

What's the difference between mahealthconnector.org and healthcare.gov?

Healthcare.gov is the federal government's health insurance marketplace and was established through the Affordable Care Act (ACA), also known as Obamacare. The MA Health Connector is our state's health insurance marketplace. If searching for coverage in MA on healthcare.gov, you will be redirected to mahealthconnector.org. Through the MA Health Connector you can select a plan from a variety of insurers such as Blue Cross Blue Shield, Harvard Pilgrim, or MassHealth.
