LOGMEIN EMERGENCY REMOTE WORK KIT

Trusted tools to power healthcare providers through the unexpected.

About LogMeIn

In healthcare, your responsibilities don't stop in times of crisis, in fact, that's when you're needed most. That's why the LogMeIn team is committed to helping you reduce unnecessary employee risk by supporting remote work whenever and wherever possible.
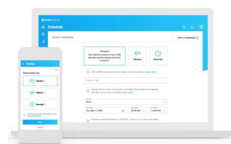

Free Service for 3 Months

In response to the recent health crisis, the following groups will have free, organization-wide use of the LogMeIn Emergency Remote Work Kit:

- Critical front-line service providers
- Healthcare providers
- Non-profit organizations
- Current LogMeIn customers

## What's Included - GoToMeeting   rescue assist

Meet - Use GoToMeeting to reduce employee exposure by enabling face-to-face remote collaboration, via desktop, web, or mobile.

Support - Keep the systems your front-line teams depend on running without IT physically present. Resolve technical issues by delivering web-based support to customers, end users, unattended computers and servers.

Access - Minimize non-essential staff on-site, while still supporting your patients. Allow staff to remotely access their work desktops from off-site endpoints.

Host - Deliver critical information quickly via remote all-hands or company-wide announcement to up to 3,000 attendees.
