

ANNUAL REPORT 2022

Over the course of our first full year operating as a non-profit, the T&M Associates Foundation has seen the direct impact we have made on the communities where we live, work, and play and could not be more pleased with the Foundation's success. Working with partners in all our regions we have been able to award thousands of dollars in scholarships, educate hundreds of students on STEM related topics, and provide numerous hands-on volunteer activities.

Our mission: To improve quality of life through acts of kindness, charitable outreach, educational programs, and social support in the T&M family and the communities in which we live, work and play.

"My scholarship support has helped tremendously with covering tuition costs, as well as additional required expenses such as textbooks and the renewal of my parking permits every semester. I want to thank T&M associates for this support - it has really made a difference!"

**an abridged version*

Thanks to the support of our donors, we can expand on what we have built in our first year.
We look forward to increasing our impact in years to come.
