

**Governance Board Operations Committee (Continued)**  
**Board of Directors Report**  
**Summer 2021**

**Codification review will continue through the end of this year, with improvements expected to the communications policy; clarification of the procedures for unit governance, formation and dissolution and the composition of the Board Executive Committee, to name just a few. As the transition to a smaller Board gets underway, there are many areas of the Codification that will require changing, as Management, staff and members-at-large through appointment by Management or the Board of Governors take on more of the roles currently being filled by Board members. Key functions include NABC Site Selection, Bridge decisions beyond what are fulfilled by the joint Management/Board/Member/Masterpoint Committee, and approval of players to compete in Grass Roots events when they have residences in multiple districts.**
