

## ST PETER'S HEALTH PARTNERS

Dear Member of the Catholic Community,

Have you ever felt like you wanted to get involved in some sort of ministry but weren't sure what to do, where to do it, or what would be involved? Well, maybe we have an opportunity for you at St. Peter's Health Partners. We are currently in need of more volunteers for Eucharistic Ministry. What is Eucharistic Ministry? Of course the primary focus is offering communion to our Catholic patients but it is more than that. Patients and families appreciate seeing someone who reminds them that God is watching over them and is leading and guiding the medical staff in taking care of them. Patients enjoy receiving communion, having prayer and just having someone visit them and encourage them that someone cares.

If this sounds like something that interest you, please contact the Spiritual Care Office at any of our St. Peter's Health Partners locations and let them know of your desire to become part of this ministry. Come meet with us and discuss this ministry. We are currently in need of some weekly and monthly regulars, as well as some substitutes. It takes about an hour or so to take communion around to those that will be on your lists. The blessings are without measure!

Give us a call if God is leading you into this wonderful ministry.
