

Apple juice making party

Saturday Sept. 20, 2025

2:00 PM start (until no more apples to juice or 4 PM'ish)

At Katherine Wieseman's home --- 375 Community Lane, Sequim. See map above

- Find me: Community Lane is off Woodcock Rd just east of the Dungeness River. Community Lane and Marinas Way intersect with Woodcock Rd at the same spot. Take the paved road (that's Community Lane). Speed limit on Community Lane is 10 MPH. Look for the 375 green fire marker sign for my very long driveway. **Look first to make sure no one is coming toward you on the driveway; it's only wide enough for 1 car at a time. 5 MPH speed limit sign tells you where to turn. Yes, it's really 5 MPH** on the driveway, please! Keeping your speed **slow** alows the gravel to stay on the long driveway and gives time to be sure no one is coming towards you. **Please do not drive on the edges of the driveway**.

- Drive past the house, past the barn and park in the field behind. Someone will help guide you.

We'll juice in the area between the house and barn.

I have a few chairs for those with limited mobility.

There's a rudimentary toilet in the barn if needed.
