EMAIL & PHISHING ALERT

Several members of our OUUF community have recently received **phishing emails.** These emails may appear to come from a staff member, Board member, or another person you know.

DO NOT RESPOND OR PURCHASE GIFT CARDS.

In the past, these scams have caused problems when someone responded to the email or followed the instructions.

Please remember:

- **Never purchase gift cards** in response to an unexpected email request.
- **Never open an email attachment or click on a link** unless you are absolutely certain it is safe.
- **Always verify the actual sender's email address.** Display names can easily be spoofed.

A helpful tip:

To confirm who actually sent an email, **hover your mouse over the sender's name or right-click on it to view the full email address.** If the address does not match the address you expect, delete the message immediately.

If you receive a suspicious request for gift cards that appears to come from someone at OUUF, **contact that person directly using a phone number or email address you already have—not by replying to the suspicious message.**

Please stay vigilant and help protect **yourself, your devices, and our OUUF community!**

If you have any questions, call the OUUF Administrator, Elinor Tennyson at olympicuuf@outlook.com or text/call 360-565-6783
