ADVENTURERS OUTING: LAKE CRESCENT

On August 8th, members and friends of the Fellowship will rendevous at that almost hidden small parking lot located at the end of a road that forks to the RIGHT off the road to the main Lodge parking lot (see MAP).

This will occur at 9:30 AM. Yes, sleepy heads, we must convene prior to the hoards of tourists that will, I promise you, take over every inch of available space in the main lot and on the beach close to the Lodge. At least this is true if the weather is pristine.

Bring a lunch and a chair. Bring a type of water craft and PFD if inclined to get in/on one of the most beautiful lakes in the world. Canoes and kayaks may be rented from the National Park Lodge.

This is in itself a supreme place to admire and enjoy. There is also a dock extending out into the lake that invites us to jump off cowabunga style!!

A word of warning: the only Rest Rooms available are in the Lodge. Or maybe in the lake - depending at how you look at it. Do your own research if unfamiliar with the territory.

Recognize too that Marymere Falls is a delightful hike though somewhat steep, 500 feet elevation gain. Another option is "Moments in Time Interpretive Trail", a mostly flat, packed dirt trail leading through old growth Cedar and Douglas fir trees. The signs along the trail tell history of Lake Crescent; the loop is 0.7miles long.

Questions: talk with George or Jolie Will at the Fellowship or call 360-808-3800. Be there or be square

PS: Children INVITED. Please RSVP BY AUGUST 5th.
