

Salutatorian

Micah Bean

After an extensive year of learning and routine days of it, we are finally gathered here to conclude our school year right. We are surrounded by the ones we love, friends, parents, grandparents, perhaps even siblings to join in this celebration of ending this fantastic school year. I would like to thank you all for coming here today and encouraging us throughout the years. Our teachers have done much for us. We have learned a lot and this school is an excellent place to learn. We've also had many opportunities in attending BCA. We have been able to play sports. We had a basketball team, a soccer team, a track team and a volleyball team. We may not have won many games, but we gave it our all we had and tried our best, the teams never gave up and we enjoyed playing. As long as we had fun in the end, it's all acceptable. We also had a play. We had numerous people in the play devote lots of time into learning their lines, learning to act well, costumes and all that in a sense that we aimed to make a fun and entertaining play for our audience. If this school has anything, it is spirit, we never give up on what we want done here and the teachers have strived to make the best learning experience they can. We've taken field trips to various places and the 6th grade has gone to Huntsville. I can hope from personal experience that they enjoyed it. The 8th grade has gone to Washington, D.C., and of all the places in the U.S. to take a field trip to, Washington could be the greatest to learn of history and about our nation.

Over these years, we've gained much from attending BCA. Whatever we do in life, we owe it all to our teachers that have led us through this school learning what is needed and more, and learning about our beliefs. With having gone to a place like BCA, unemployment will likely never be a problem for any of us. We have learned what we will use in the real world, problem solving, and manners and all that, and we promise to not go making weird faces at people, lest our faces get stuck that way. We've gained much from attending BCA, we've come a long way, through many challenges to get this far, and I welcome you by wishing that God would bless each and every one of you with health, wholeness, and happiness. Parents, grandparents, and friends come to enjoy this milestone in our lives. Thank you so much for coming as we celebrate.
