

Minimum Day Workshop:

Friday, October 21st from 12:30-3:30 p.m. Price is \$60 per child, minimum 6 children required. You can register and pay online at: [HERE](#)

Crackers and cookies with Marie for K-5th grade. Language: French. Children will learn to make crackers and cookies from scratch. They will make Swiss cheese and sesame seeds grissini (breadsticks), with flour, olive oil, baking powder, Swiss cheese and sesame seeds. Children will also bake funny face cookies with chocolate chips and M&Ms using flour, butter, sugar, vanilla extract, baking powder, chocolate chips and M&Ms. Please advise if your child has any allergies.

Kubo Game Hackathon! with Catherine from Design Code Build for 1st-8th grade. Language: English.

Learn how to make a Scratch game based on the hit summer movie, "Kubo and the Two Strings". Use cool graphics from the movie, and learn the code logic behind game engines of games such as Flappy Bird, Fruit Ninja, Asteroids, and Agar.io... and see how you can adapt them to make your own epic game. For the first 45 minutes we will offer a quick coding tutorial using one of the game engines, and then show a trailer of the movie. Afterwards, students will work together in teams of two to create the best possible game they can in the remaining 2 hours. Teams will be encouraged to show their games to the class on the screen. Movie-themed prizes will be awarded to all presenters!

Halloween Art with Gabriela Language. English. 2nd-8th grade. Using fabric and paint we will create a creepy creature to attend your Halloween party. Paper, fabric and glue will be used to create a "Dia de los Muertos" skull to decorate your room.
